FEATURED RELEASE

History of the World

Bringing 70,000 years of human history to life, populated with big characters in the places where the big events happened. It is the story of civilisations, cultures, successes and crashing failures, a story that charts progress and development through the centuries.

NEW PROGRAMMING

The Men Who Made Us Fat

Around the world, obesity levels are rising, more people are now overweight than undernourished. Jacques Peretti explores the profitable ways eating habits have been revolutionised over the last 40 years. He also explores the power of marketing and advertising on the choices we make.

Final Frontier? Horizon Guide to Universe

Over the last 40 years, Horizon has joined scientists as they have probed the secrets of the universe. Dallas Campbell delves into the Horizon archive to reveal the mind-boggling discoveries that have changed the way we think about our world.

Prison, My Family & Me

What is it like when a family member gets locked up? How do you cope emotionally or financially? Can you really forgive someone who commits a terrible crime? This documentary examines what it's like for family members when a loved one gets on the wrong side of the law.

Prehistoric Autopsy

Gathering all the disparate, fragmentary evidence of three of our most significant prehistoric ancestors together, the team completely rebuilds their bodies, revealing how they moved, how they lived and how much like us they were.

Rome - What Lies Beneath

Dr Sarah Parcak uses space-archaeology to discover what the glory of the Roman Empire was really like. With satellite archaeology and high-tech remote-sensing tools at its heart, this epic film peels back the layers of history to literally see Rome in all its magnificence.

Seven Ages of Starlight

This programme tells the inspiring story of the most brilliant objects in the universe. Each chapter deals with the different stages that a star goes through during its lifetime with emphasis on our sun and what these changes mean for Earth.
